Oscar Flores App

25 years of history in this legacy

This is the great work and legacy of my life, in the application of classes you will find a way to always be connected to your classes. They have the web, where after registering, creating a username and password, they can access the classes from their computer and connect their SmartTV, the application can be downloaded from the Apple Store or Google play. Once the App is downloaded, they will access with the same username and password that they created on the web. They can use it on Smartphones and Tablets. The classes are dynamic, happy and easy to understand, in each class we will study a special topic, and we will develop it, there are times where I let the student practice, and experiment before continuing with the next step. The theoretical classes are wonderful, because they are audiovisual documents that allow you to understand, explore and travel with a kind of guided documentary in each one. All students start from the first class of the program, regardless of their previous experience, why? Because my program is different, it has been 25 years of mixing the best ingredients, techniques and steps to achieve the best of each one. My program begins with understanding the music, since all our lives we will dance to music and if we are not able to understand it we will not have choreographic independence. Then exploring movement, quality of movement will give me quality of dance

steps and therefore choreographic quality. And everything is like that, each element in the program is not left to chance, it is part of a unique education system, where the personal and artistic evolution of the student is the main focus. If you choose the teacher, we will see each other every month in correction classes, and we will maintain a fluid and close communication, I will be your coach and mentor.
